Crude Fiber, max 7.00%

INGREDIENTS

Processed Whole Flax Seed, Processed Whole Canola
Seed and Canola Meal

Packaging:

- 50lb bags, 1-ton totes or bulk

Storage:

- Store in a cool dry place.
- Recommended to maintain inventory that will be used within a nine month period.

EXL LIPEX.FA369 is:

- A granular free-flowing product ideal for use in meal, pelleted and liquid feeds.
- Highly palatable to young piglets.
- A rich vegetable oil source of Omega-3 fatty acids (8.3%)
 - Omega 6:3 ratio is 1:1
- Manufactured under HACCP certified standards.
- Very stable in storage.
 - Oils are effectively protected from rancidity by natural tocopherols and their encapsulation with starch during the thermo process.
- Antibiotic free.

EXL LIPEX.FA369 provides:

- Omega-3 fatty acids, recognized for their unique ability to:
 - Support high reproductive performance.
 - Support the immune system.
 - Minimize the effects of stress by suppressing cortisol production.
- A high quality dietary source of:
 - Protein (essential amino acids)
 - Vegetable oils (essential fatty acids)
 - Natural enzymes
 - Natural Vitamin E

EXL LIPEX.FA369 feeding directions:

- Formulate to desired dietary Omega-3 level.
- Formulate to an Omega 6:3 ratio of approximately 4.5:1.
- For best results, thoroughly mix EXL LIPEX.FA369 into complete feed according to the table below.
- Top dressing EXL LIPEX.FA369 is an option. The amount to top dress is calculated as a % of the amount of diet feed.

(example: 5 lb gestation feed/day x 2% = 0.1 lb LIPEX.FA369/day)

Production Phase	Omega-3 (% of diet)	Inclusion Rate	
		lb/ton	kg/MT
Gestation	0.35	40-80	20-40
Lactation	0.55	80-150	40-75
Nursery	0.55	100-150	50-75
Grower	0.45	80-120	40-60
Finisher	0.35	50-100	25-45

The final inclusion rate of EXL LIPEX.FA369 will depend upon desired Omega-3 level, and more importantly the Omega 6:3 ratio.

Consult with your nutritionist to ensure a balanced ration.
